Product Details-Protecting the Environment and Human Health

- **Ultra-Thin, Flexible Design**—Without compromising safety
- **Protection Against Cuts, Abrasions And Slashes**—During procedures involving sharp blades or edges for user protection
- **Six Sizes**—Accommodate users of all sizes

Manage Risk and Comply with OSHA Standards

- **Risk Reduction**—Blades and broken glass have the potential to be a health hazard if they are contaminated with toxic chemicals, blood, or infectious substances which may enter the body through a cut or puncture

Eco-Friendly—Minimizing Chemicals of Concern and Waste

- Chemically inert and biocompatible
- Powder-free for allergen reduction
- Latex-free per health safety guidelines
